

How To: Instant Open- Scan a Driver's License

This new feature will appear during the process of opening an account on a mobile device. After selecting the type of new account, you wish to open and tapping "continue" the following options will be presented.

1. The **Primary Applicant Information** screen will have a gray box just below the instructions. This box appears above the blue Applicant Information bar. **Tap** on the gray box with the instruction for entering license information.
